

My name is Ryan Foster, and I build communication tools.

My strategic approach to content development, design, user interaction, and programming will give you the tools that you need, to not only make your audience stand up and take notice, but help them find the information you want them to see, and discover the products they want to buy.

EXPERIENCE**SENIOR WEB DEVELOPER - SALT LAKE CITY, UT**

HOTWAX MEDIA INC , FEBRUARY 2007 - JULY 2010

Design development and implementation of complex ERP applications, and ecommerce websites. Design and development of Flash microsites. Interaction design and development of content managed websites. Print design. UX/UI design. Branding.

CREATIVE DIRECTOR - SALT LAKE CITY, UT

ACS INC , JUNE 2006 - DECEMBER 2006

Responsibilities included overall management and direction of the design process of instructional content for the company's Learning Management System (LMS). Managed a global team of Flash Designers/Programmers in the US and the Philippines, creating media to support text of web-based courses within the application.

WEB APPLICATION DEVELOPER - SALT LAKE CITY, UT

ACS INC , MAY 2005 - JUNE 2006

Responsible for development of web applications to support client programs for the Commercial Solutions division of ACS. Focus of the position was to create database driven, web-based solutions to operational systems and procedures such as reporting, call tracking, employee management, and communications.
